

April Brings Quilt Retreat!

Confirmation Emails were sent out - did you get yours?

Sent on Monday, April 6th, for those registered for Quilt Retreat **only**.

Email confirmations were sent from linda@thatssewspecial.com, so you may find your email in the spam or trash folder until you add that email to your contacts. Only one bounced so I am assuming all is well unless you tell me!

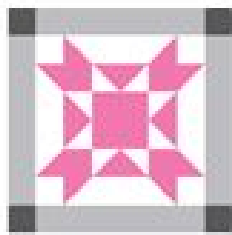

The menu is updated on the website, as is the itinerary, which is very flexible for major opportunities for enjoyment! Check out the website under [Retreat Itinerary](#) for more general information about packing, a map of the campus with address for your GPS, and even a link to see the weather forecast for Ripley, WV.

Another gift received in anticipation of Quilt Camp at Cedar Lakes this fall. We appreciate all of the support we get from the quilt making industry! See our friends on the website here.

Quilt Camp at Cedar Lakes

Have you seen the Class List for Camp?

Sew... on March 28th, I tried this new software for sending the newsletter, and so far I do think it's a great alternative. But I attached a pdf file to that newsletter, and some of you didn't get it - sorry about that! (No attachments, got it!) However, if you did not get this one either, I need to dig further to find out why. Please make sure it didn't go into your trash or spam, and then drop me an email and I will become a sleuth and hopefully find out why! Thank you for all the assistance in making this right!

Meanwhile, the class list is up on the website, as are all of the new newsletters, should you need to find anything. Registration for fall Camp will open on May 1st, and housing forms will be available shortly before that, too.

As always, give me a call or drop me an email if you have any questions!

That's Sew Special LLC
